- Play number track games with numbers up to 20 (You can use the track on the back of this). When your child lands on a number, ask them what is 1 more or 1 less. Then try covering some of the numbers up and see if your child can work out one more or one less than numbers you point to.
- Count sets of up to 10 and then up to 20 objects. Ask your child questions such as 'What would 1 more be?' 'If I took one away how many would you have now?'

Extensions for when you have achieved ALL the skills.

- Can you say what is 2 more or 2 less than a number to 20?
- Can you say a number that is 1 more or 1 less than numbers above 20?
- Practice ordering numbers above 20.
