

Count in jumps of 5's up to at least 50.

- Use the hundred square below to help spot the patterns in numbers when counting. Emphasise the units when counting aloud; twenTY, twenty-FIVE, thirTY, thirty-FIVE.....
- Count in fives as you go up and down the stairs (for your toes).
- Write the sequence of counting in 5's on post-its and get your child to order them. Remove one post-it and see if they can spot the missing number.
- <http://www.ictgames.com/whackAMole/index.html> Choose to start at 0 and count in 5's
- <http://www.ictgames.com/saucerSorter.html#top> Choose to count in 5's. Move the saucers around while your child isn't looking and then get them to reorder them in the correct sequence... counting all the time in 5's to check.
- **TABLET FRIENDLY** <http://www.topmarks.co.uk/ordering-and-sequencing/chinese-dragon-ordering> Select Sequencing/ Counting in multiples/Multiples of 5. Allows you to practice ordering multiples of 5 up to and back from 100.

Extensions for when you have achieved ALL the skills.

- Learn the times table facts for the 5 times table. Eg, to know that $5 \times 4 = 20$.
- Practise counting FORWARDS in steps of 5 from any given number (EG, 2, 7, 12, 17, 22, 27.....). Pass the Pigs is a great game to practise this! (Google Pass the Pigs – it is a small, handbag sized game that is easy to pick up in toy stores or on Amazon for less than £10)
