

18.5.20 Estimation Challenge

Estimation Station

Math Challenge for Kids

There are a number of exciting estimation activities online for you to try.

Depending on the resources you have... you could try some of these...

- Find some small objects and estimate how many you can hold in your hand.
- Find a cup/bowl and estimate how many objects will fill the bowl.
- Estimate how many times you can jump up and down in a minute.
- Estimate how long it will take you to complete a specific task.
- Estimate how big your biggest step/jump could be.

Enjoy!
