

Pet Worry Monster - Junk Modelling Challenge

Is there a Worry Monster where you do your learning? Do you think you can build one? What tools and materials will you need? Will you give yours a name?

Worry Monsters make great pets. They love helping people to let go of their worries. They do this by eating them! So if you ever have a worry, remember to share it. You can do this by drawing it or writing it down for your Worry Monster to gobble up.

Enjoy!
