

Make a friendship bracelet

You will need:

- Thread, ribbon, wool or string in two colours, about 1 m of each
- Tape or a safety pin to secure your friendship bracelet

Instructions:

1. Start by folding your thread (or whatever you are using) in half and tie a knot to create a loop. You'll use this to tie the friendship bracelet at the end.
2. Stick the loop to the table with some tape or pin it to your trouser leg to secure it.
3. Divide the threads by colour, you should have two of each colour.
4. Tie an overhand knot ten times then swap colours and tie ten more. Keep swapping until your bracelet is the length you want it, leaving about 10cm at the end to fasten it.
5. To tie it to a wrist, pull two threads through the loop and tie them together with a double knot.
